PROFILE

Motivated Computer Science student passionate about AI and full-stack development. Experienced in leading data-driven projects, from cancer cell detection to intelligent study assistants. Skilled in transforming ideas into real-world tools through strong analytical thinking and technical precision.

WORK EXPERIENCE

Bereke Bank 06/2025-07/2025
AI specialist and developer (intern)

- Developed and deployed AI solutions for fraud detection, credit scoring, and customer segmentation. Leveraged machine learning and data analysis to optimize banking operations, improve decision-making, and enhance customer experience.

Chess Time 06/23-08/2025
Assistant chess coach (intern)

- During the training sessions, I provided support to the head coach and helped improve the strategic thinking and playing performance of the students.
- Helped to plan and conduct classes for players of different levels of training.

GC education 01/2023-02/2023
Marketing Manager & Specialist (intern)

- Actively supported the marketing team by creating engaging content, managing social media channels, analyzing campaign performance and leveraging data insights to improve student engagement, coordinating promotional events, and contributing to strategies that increased student engagement and strengthened brand awareness in the educational sector.
